IUPAC Prize for Young Chemists 2007 – Invitation for Entries

The prize will be given for the most outstanding PhD thesis in the general area of the chemical sciences. Deadline is the 1st of February 2007 for entrants that receive their PhD degree during the calendar year 2006. More information and application forms can be obtained from: <http://www.iupac.org/news/prize.html>

Awards and Honors

Prix Schläfli SCNAT 2006 Honors Two Young Chemists

As part of its continuing efforts in promotion and career advancement each year the Swiss Academy of Natural Sciences awards prizes to young scientists. This year the prize goes to two young chemists. Prof. Dr. **Karl Gademann** (EPF Lausanne) receives the main prize for his outstanding work on natural products. Dr. **Damien Polet** (University of Geneva) receives a special prize for his contribution to the development of new copper and iridium catalysts for organic synthesis.

Sofja Kovalevskaia Prize

The Alexander von Humboldt Foundation awards its Sofja Kovalevskaia price to Dr. **Jens Bredenbeck** (University of Zurich) for his contribution to femtosecond IR spectroscopy of molecular processes. The cash prize will allow the laureate to start his own independent research career at the Johann Wolfgang Goethe University in Frankfurt, Germany.
