Prof. Peter Chen was named Vice-President of Research at ETH Zurich

Prof. *Peter Chen*, Laboratory of Organic Chemistry, ETH Zurich, was named Vice-President of Research at ETH Zurich. He will follow Vice-President Dimos Poulidakos on September 1, 2007.

DrugBank Database

The freely available *DrugBank database* at the University of Alberta combines detailed drug (chemical, pharmacological and pharmaceutical) data with comprehensive drug target (sequence, structure, and pathway) information. The database contains nearly 4300 drug entries including more than 1000 FDA-approved small molecule drugs, 113 FDA-approved biotech (protein/peptide) drugs, 62 nutraceuticals and more than 3000 experimental drugs. Additionally, more than 6000 protein (drug targets) sequences are linked to these drug entries. Each drug record contains more than 80 data fields with half of the information being devoted to drug/chemical data and the other half devoted to drug target or protein data.

Historischer Streifzug durch das chemische Labor

Die Wanderausstellung 'Museum auf Achse' zu Besuch an der ETH Zürich.

Von mittelalterlicher Probierkunst über Porzellanerfinder und erste Laborgeräte bis hin zur hochentwickelten Molekül Modellierung: Das 'Museum auf Achse', eine Wanderausstellung des Carl Bosch Museums Heidelberg, gastiert vom 14. August bis zum 20. Oktober an der ETH Zürich und nimmt die Besucher mit auf eine spannende Zeitreise durch die Tradition chemischer Forschung.

Öffnungszeiten

Dienstag, Mittwoch, Freitag, Samstag: 10.00–16.00 Uhr,

Donnerstag: 10.00–19.00 Uhr

Ort

ETH Hönggerberg, Piazza zwischen Bistro und HCI

Honors/Ehrungen

Michael E. Herbig, PhD student in Prof. H. Merkle's group at the Institute of Pharmaceutical Sciences, ETH Zurich, received the GSIA Prize for an Exceptional PhD Thesis for his dissertation titled 'Biophysical Studies on the Interaction of Cell-Penetrating Peptides with Model Membranes'. This prize is donated by the Schweizerische Gesellschaft der industriellen Pharmazeuten.

Prof. **Marco Mazzotti**, Institut für Verfahrenstechnik, ETH Zurich, was elected as the vice president of the International Adsorption Society (IAS), a worldwide society headed by leading scientists in this field.

Prof. **Nicolas Spencer**, Department of Material Science, was appointed to be Fellow of the Royal Chemical Society (FRSC) in recognition of his trend-setting work in chemistry. He is the

second ETH professor to receive this honor after Prof. Paul Smith in 2004.

Prof. **Artem R. Oganov**, Laboratory of Crystallography, ETH Zurich, received the 2007 University Latsis Prize for his research in the field of crystal structure prediction and for the discovery of major earth-forming minerals.

Prof. **Dieter Seebach**, Laboratory of Organic Chemistry, ETH Zurich, was elected to be Foreign Associate of the National Academy of Sciences (USA). He also will be at Harvard University as guest professor throughout the fall term 2007, substituting Prof. David A. Evans in the lecture Chem 206, Advanced Organic Chemistry.
