HONORS

The Board of the Swiss Chemical Society has conferred Prof. **Dulio Arigoni** and Prof. **Albert Eschenmoser** the SCS honorary membership.

Dulio Arigoni was born in Lugano in 1928. He studied chemistry at ETH Zürich, where he became professor in organic chemistry in 1962 and worked until his retirement in 1996. Arigoni was visiting professor at Harvard University (USA) and Technion (Israel) and held several named professorships at Cornell University (USA), Cambridge (UK) and Harvard University.

Albert Eschenmoser was born in Erstfeld in 1925. He took his PhD at ETH Zürich in 1951, where he served as professor of organic chemistry from 1960 to 1992. Among his many honors are the Davy Medal (Royal Society of Chemistry, UK), the Tetrahedron Prize for Creativity in Organic Chemistry, the Robert A. Welch Award, the American Society of Chemistry Cope Award and the Wolf Prize in Chemistry.

Priscilla S. Brunetto, Department of Chemistry, University of Fribourg, has been awarded with a CUSO Prize for PhD students for her research on the prevention of bacterial migration to implant materials, their adhesion and biofilm formation. This interdisciplinary research subject includes the synthesis of new silver coordination compounds, their application to implant surfaces, analyses of the coatings as well as antimicrobial and bio-integration studies.

Dr. Lukas Palatinus, Laboratory of Crystallography, EPFL, has been awarded the Lewy-Bertaut prize for his significant contribution to the solution of the phase problem in crystallography. The prize is awarded by the European Crystallographic Association and European Neutron Scattering Association to a young European scientist in recognition of notable contributions in the field of investigation of matter using crystallographic or neutron scattering methods.

New Chimia Website Feature: RSS Feeds of Lectures

Chimia has revamped its lecture web pages and is now offering RSS feeds of lecture announcements. To keep yourself up-to-date, just click the orange RSS button at www.chimia.ch/lect/ for all lectures at swiss universities and institutions, or choose the RSS feed for your preferred location at www.chimia.ch/lect/lect.cfm. A RSS-enabled browser (Firefox 3, Safari 3 or 4, IE 7 or 8) or a RSS reader software is required.

SimplyScience: Arbeitsunterlagen für Lehrpersonen zum Thema DNA

SimplyScience, die Jugendplattform zu Naturwissenschaften und Technik, hat in Zusammenarbeit mit der Schulplattform kiknet.ch Arbeitsblätter für den Schulunterricht zusammengestellt. Auf der Website www.simplyscience.ch sind weitere Informationen, Hintergrunddossiers und viele spannende Artikel zum Thema DNA zusammengefasst und für Jugendliche attraktiv aufbereitet. Als Höhepunkt und zum Abschluss der Schullek-

tion haben die Schülerinnen und Schüler die Möglichkeit, das Gelernte im DNA-Quiz zu testen und tolle Preise zu gewinnen.
