SCS Conference on Stereochemistry 2017 – “Bürgenstock Conference”

30. April – 4. May 2017, Seehotel Waldstätterhof, Brunnen

This international conference provides highest scientific quality, with an optimal setting for intense inter-disciplinary discussion.

Stereochemistry is the principle underlying our understanding of the processes of life and the properties of matter at

the molecular level. It is a key element not only in all chemical disciplines, but also in modern molecular biology, molecular medicine, biophysics, and material design. Accordingly, the 'Bürgenstock Conference' has grown over the years into a multi-disciplinary conference where frontier science is being discussed. Lectures cover many areas of chemistry and relevant highlights from neighboring disciplines.

Program

The program consists of 14 plenary lectures (60 minutes), each followed by a discussion session of 30 minutes. Thus, there will be ample time for each topic to be presented fully and examined from different angles and perspectives. Lectures and discussions are held in the mornings and the evenings. The afternoons are free for recreation, informal discussions, and poster sessions.

Innovation finanzieren mit Non-Dilutive Funding für Start-ups und Unternehmen

17.05.2017

Hotel Engel, Liestal

Innovation ist der Schlüssel für den Erfolg von KMUs und Start-ups. Eine Möglichkeit, innovative Geschäftsfelder zu entwickeln, zu erhalten und den Zugang zum Markt zu erreichen, ist es, Non-Dilutive Finanzierungen in das Unternehmen zu holen. Diese Art der Finanzierung ist ideal, um bei der Umsetzung neuer Ideen und Strategien zu unterstützen. Ebenso ist die Kooperationen mit Partnern aus anderen Geschäftsfeldern und aus anderen Ländern ein wichtiger Schritt im Prozess der Unternehmensentwicklung. BaselArea.Swiss und Euresearch Basel organisieren diesen Anlass mit Unterstützung der Standortförderung Baselland, KTI/InnoSuisse und der Handelskammer beider Basel für interessierte Unternehmer, Forscher und Innovatoren. Experten informieren über verschiedene Finanzierungsmöglichkeiten wie Horizon 2020, Eurostars, Gründerförderung BaseLaunch, CTI und Interreg. Zudem werden Unternehmer von ihren eigenen Erfahrungen berichten.

Course on Medicinal Chemistry

24.–26.05.2017, Hotel Merian Basel

Medicinal chemists need to understand the relationship between chemical structure and the physical properties of molecules and how this translates into compound stability and the interaction of the molecule with biological structures. These biological targets include proteins, lipids, nucleic acids and cell membranes. Interaction of the molecules with these targets affects the distribution of the compound in biological systems and modulates biological function.

September 25-28, 2017

 UNIVERSITÄT
SALZBURG

SCS at the Austrian Chemistry Days 2017

The Austrian Chemical Society (Gesellschaft Österreichischer Chemiker, GÖCH) invited the SCS to partner for their major annual chemistry event in Salzburg. To strengthen the relationship and to foster the exchange between researchers of both countries, SCS plans to participate with a delegation of about 30 researchers.

The SCS delegation will be led by, *Prof. em. E Peter Kündig*, University of Geneva (Invited lecture on Wed, 27.09.17, 14.20h), *Prof. Maksym Kovalenko*, ETH Zürich, Werner Prize Winner 2016 (Invited lecture on Tue, 26.09.17, 09.00h), *Dr. Alain De Mesmaeker*, Syngenta Crop Protection, Stein, SCS President, *Prof. Christian Bochet*, University of Fribourg, SCS Vice President, *Dr. Hans Peter Lüthi*, ETH Zurich, SCS Board member, *David Spichiger*, SCS Executive Director

We are now calling for PhD/Postdoc applications that will complete the SCS delegation

«Chemistry – from Life Sciences to Materials»

Chemical sciences are essential for understanding fundamental processes and developing new technologies. The Austrian Chemistry Days 2017 will focus on the central role that chemistry plays for a variety of fields, ranging from life sciences to functional materials.

The conference will invite scientists from all chemical disciplines to address topics such as synthesis, analytical sciences, catalysis, chemical biology, computational chemistry, electrochemistry, material chemistry, supramolecular chemistry and nanochemistry.

The Austrian Chemistry Days will promote cross-disciplinary discussions that are essential to the emergence of new concepts. Plenary lectures, oral and poster presentations will stimulate interactions between young scientists and internationally recognized experts. A specific program for undergraduate students will be held. In the past, the Austrian Chemistry Days have been organized in cooperation with neighboring chemical societies. Members of these societies are particularly welcome to participate. In 2017, the GÖCH is glad to share the meeting with the Swiss Chemical Society. English will be the official conference language.
