

# Organic Free Radicals

## EDITORIAL

- 361 Organic Free Radicals  
*Prof. Dr. Philippe Renaud*
- 364 Radicals and Radical Ions as Intermediates of Electron Transfer Processes through Peptides  
*B. Giese\*, S. Eckhardt, M. Lauz, J. Gao, M. Wang*
- 368 Biomimetic Models of Radical Stress and Related Biomarkers  
*C. Chatgililoglu\*, C. Ferreri, A. Masi, M. Melchiorre, A. Sansone, M. A. Terzidis, A. Torreggiani*
- 372 Free Radical-mediated Hydroxymethylation Using CO and HCHO  
*T. Kawamoto, I. Ryu\**
- 377 Mn(III)-Catalyzed Radical Reactions of 1,3-Dicarbonyl Compounds and Cyclopropanols with Vinyl Azides for Divergent Synthesis of Azaheterocycles  
*S. Chiba\**
- 382 NHC-Boranes: Air- and Water-tolerant Co-initiators for Type II Photopolymerizations  
*E. Lacôte\*, D. P. Curran, J. Lalevée\**
- 386 Ruthenium-catalyzed Atom Transfer Radical Addition Reactions  
*K. Severin\**
- 389 Radical-mediated Dimerization and Oxidation Reactions for the Synthesis of Complex Alkaloids  
*S. P. Lathrop, J. Kim, M. Movassaghi\**
- 394 Radical Carbon–Carbon Bond Formations Enabled by Visible Light Active Photocatalysts  
*C.-J. Wallentin, J. D. Nguyen, C. R. J. Stephenson\**
- 399 Recent Advances in the Chemistry of  $\text{SmI}_2\text{-H}_2\text{O}$   
*B. Sautier, D. J. Procter\**
- 404 Some Aspects of the Radical Chemistry of Xanthates  
*B. Quiclet-Sire, S. Z. Zard\**
- 413 Transition-metal-free Oxidative Coupling Reactions for the Formation of C–C and C–N Bonds Mediated by TEMPO and its Derivatives  
*S. Murarka, S. Wertz, A. Studer\**
- 418 The Development of Organic Super Electron Donors  
*S. Zhou, H. Farwaha, J. A. Murphy\**
- 425 Homolytic Reduction of Onium Salts  
*L. Fensterbank\*, J.-P. Goddard\*, M. Malacria\*, C. Ollivier\**
- 433 Reductive Cleavage of 2,2,2-Trichloroethyl Esters by Titanocene Catalysis  
*A. Gansäuer\*, T. Dahmen*
- 435 Enzyme-triggered Radical Reactions: Another Approach For Tin-free Radical Chemistry  
*I. Cissokho, A.-M. Farnet, E. Ferré, M. P. Bertrand, G. Gil, S. Gastaldi\**
- 439 Photoredox Catalysis for Polymerization Reactions  
*J. Lalevée\*, M.-A. Tehfe, F. Morlet-Savary, B. Graff, F. Dumur, D. Gigmes, N. Blanchard, J.-P. Fouassier*

## COLUMNS

---

- 442 SWISS SCIENCE CONCENTRATES  
Prepared by  
*N. Bruns, A. Ganic, V. Köhler, F. Monnard, M. R. Ringenberg, T. R. Ward*
- 443 HIGHLIGHTS OF ANALYTICAL CHEMISTRY IN SWITZERLAND  
On-Line Process Control of the Roast Degree of Coffee  
*F. Wieland, A. N. Gloess, M. Keller, A. Wetzel, S. Schenker, C. Yeretjian\**
- 444 POLYMER AND COLLOID HIGHLIGHTS  
Introducing a Reversible Linkage to Block Copolymer Self-Assembly:  
Towards Controlling Nanopore Chemistry  
*J. Rao, S. De, A. Khan\**

## SWISS CHEMICAL SOCIETY

---

- 445 Invitation to the SCS General Assembly 2012
- 446 Call for Nominations for the SCS Scientific Awards 2013
- 447 KGF/SCS Industrial Science Awards
- 448 DAC – Weiterbildung Analytik
- 448 10. Swiss Course on Medicinal Chemistry, Leysin
- 449 SCS Society News and Announcements
- 450 A warm welcome to our new members!
- 451 3rd International Symposium on DNA-encoded chemical libraries

## INFORMATION

---

- 452 News
- 452 Honors
- 452 Conferences/Workshops/Symposia

## EuCHEMS

---

- 455 EuCHEMS Newsletter

## CHIMIA REPORT/COMPANY NEWS

---

- 460 Markt, Apparate, Chemikalien und Dienstleistungen
