SOMMAIRE

Laureates: Awards and Honors 2003

Swiss Chemical Society

EDITORIAL

180 *T. Rizzo*

WERNER PRIZE 2003

181 New Catalysts and Receptors by Self-Assembly and Combinatorial Chemistry
K. Severin

186 Combined Spectroscopic/Computational Studies of Metal Centers in Proteins and Cofactors:
Application to Coenzyme B₁₂
T.C. Brunold

AWARDS OF THE BEST ORAL AND POSTER PRESENTATIONS (SCS FALL MEETING 2003)

194 Toward Active-Site Compression in Rigid-Rod β -Barrels
Y. Baudry, D. Ronan, S. Matile*

196 Development of a Robust Capillary Electrophoresis–Mass Spectrometer Interface
with a Floating Sheath Liquid Feed
P. Bernet, D. Blaser, S. Berger, M. Schär*

200 Molecular Dynamics Simulations of the Internal Mobility of Gd³⁺-Based MRI Contrast Agents:
Consequences for Water Proton Relaxivity
A. Borel, F. Yerly, L. Helm, A.E. Merbach*

204 On-line Electrochemical Tagging of Free Cysteines in Peptides during Nanospray Ionisation Mass Spectrometry:
An Overview
L. Dayon, C. Roussel, H.H. Girault*

208 Ni(II)-PPP Complexes: From the Hydroamination of Activated Olefins to the Synthesis of β -Amino Acids
L. Fadini, A. Togni*

212 The Peptide Alkaloid Anachelin:
NMR Spectroscopic Evidence for β -Turn Formation in Aqueous Solution
K. Gademann, H. Budzikiewicz*

215 Chemo-Enzymatic Synthesis of Antagonists of the Myelin-associated Glycoprotein (MAG)
G.-P. Gao, O. Schwardt, T. Visekruna, S. Rabbani, B. Ernst*

219 Analysis of *Cannabis* Material by Headspace Solid-Phase Microextraction
Combined with Gas Chromatography-Mass Spectrometry
Y. Ilias, S. Rudaz, P. Mathieu, J.-L. Veuthey, P. Christen*

222 The Superior Therapeutic Properties of SOM230 Originate from Unique Structural Elements
I. Lewis, R. Albert, W. Bauer, N. Chandramouli, J. Pless, L. Oberer, G. Bovermann, J. van der Hoek, V. Boerlin,
S.W.J. Lamberts, H.A. Schmid, G. Weckbecker, C. Bruns*

228 Solvothermal Pathways Towards Transition Metal Oxides: Exploration and Optimisation
A. Michailovski, G.R. Patzke*

232 Tin-Free Radical Carboazidation
P. Panchaud, P. Renaud*

- 234 7-Hydroxyquinoline-(NH₃)₃: A Model for Excited State H-Atom Transfer Along an Ammonia Wire
*C. Tanner**, *C. Manca*, *S. Leutwyler*
- 237 Pseudo-Prolines: Reversible Conformational Trap of Cyclosporin C as Novel Concept for Prodrug Design
*O. Turpin**, *M. Mutter*, *L. Patiny*

OBITUARY

- 241 Prof. Dr. Cyril A. Grob zum Gedenken
P. Schiess

FH – HES

- 243 New Institute of Chemistry and Biotechnology ICB at ZHW
B. Sonnleitner, *H.G. Bührer*, *A.H. Amrein**

SCG/SSC/SCS

- 246 Events 2004
246 New Members
247 DAC Division of Analytical Chemistry

INFORMATION

- 248 News
248 Congresses • Conferences • Workshops
250 Honors/Ehrungen
250 Lectures

CHIMIA-REPORT

- 254 Markt, Apparate, Chemikalien und Dienstleistungen

MipTec

The Leading European Event on Enabling Technologies for Drug Discovery

3 – 6 May 2004
Convention Center Basel, Switzerland
www.miptec.com

The International Conference and Exhibition on Drug Discovery

- Target Identification and Validation
- Biomolecular Screening Strategies and the Hit-to-Lead Process
- Novel Assay Technologies and Orphan Target Approaches
- Structure-Based Drug Discovery and Chemical Genomics
- Chips, Arrays and Microfluidics
- Leveraging the Power of Informatics in Drug Discovery
- Maximizing Value from compound Collections
- Biomarker Discovery, Proteomics, and Pharmacodynamics
- ADME-Tox and Pre-Clinical Profiling

Pre-Conference

Innovations in Anti-Cancer Drug Discovery
4 May 2004
